QAnon^[a] (/ˈkjuːənɒn/ *KYOO-ə-nɒn*, /ˈkjuːænɒn/ *KYOO-a-nɒn*) is an [American political conspiracy theory](#) and [political movement](#). It originated in the [American far-right](#) political sphere in 2017.^[1] QAnon centers on fabricated claims made by an anonymous individual or individuals known as "Q". Those claims have been relayed, developed and supplemented by numerous [communities](#) and [influencers](#) associated with the movement.

The core QAnon conspiracy theory is that a [cabal](#) of [Satanic](#),^{[2][3][4]} [cannibalistic sexual abusers of children](#) operating a global child [sex trafficking](#) ring conspired against former U.S. President [Donald Trump](#) during his [term in office](#).^[8] The QAnon conspiracy theory has direct roots in [Pizzagate](#), an internet conspiracy theory that appeared one year earlier; it also incorporates elements of many other theories.^[9] Some experts have described QAnon as a [cult](#).^{[10][11]}

Followers of the conspiracy theory say that the [Trump administration](#) secretly fought the cabal of pedophiles, and would conduct mass arrests and executions of thousands of cabal members on a day known as "the Storm" or "the Event".^[12] QAnon conspiracy believers have named [Democratic](#) politicians, Hollywood actors, high-ranking government officials, business tycoons, and medical experts as members of the cabal.^[13] QAnon has also claimed that Trump stimulated the conspiracy of [Russian interference in the 2016 U.S. presidential election](#) to enlist [Robert Mueller](#) to join him in exposing the sex trafficking ring, and to prevent a [coup d'état](#) by [Barack Obama](#), [Hillary Clinton](#), and [George Soros](#).^{[14][15]} QAnon is described as [antisemitic](#) or rooted in antisemitic tropes, due to its fixation on Jewish financier [George Soros](#) and conspiracy theories about the [Rothschild family](#), a frequent target of antisemites.^{[16][17]} Many also

consider it antisemitic due to its strong resemblance to the antisemitic [blood libel](#), the myth that Jews harvest the blood of children for ritual purposes.^[18]

Although it has its origins in older conspiracy theories, the first post by Q was in October 2017 on the anonymous [imageboard](#) website [4chan](#). Q claimed to be a high-level government official with [Q clearance](#), who had access to classified information involving the Trump administration and its opponents in the United States.^[19] Q soon moved to [8chan](#), making it QAnon's online home.^[20] Q's often cryptic posts became known as "drops", which were later collected by aggregator apps and websites.

The conspiracy theory expanded into a [viral phenomenon](#) and quickly went beyond [Internet culture](#), becoming familiar among the general population and turning into a real political movement. QAnon followers began to appear at [Trump reelection campaign rallies](#) in August 2018,^[21] and Trump amplified QAnon accounts on Twitter through his retweets.^[22] QAnon's conspiracy theories have also been relayed by Russian and Chinese state-backed media companies, social media [troll](#) accounts,^{[27][23][28]} and the far-right [Falun Gong](#)-associated [Epoch Media Group](#).^[34]

Since its emergence in American politics, QAnon has spawned movements around the world. The exact number of QAnon adherents is unclear,^{[41][35]} but the group maintains a large online following.^{[31][4]} After increased scrutiny of the movement and its [hashtags](#), mainstream [social media](#) companies such as [Twitter](#)^[36] and [Facebook](#)^[37] began taking action to stop the spread of the conspiracy theory.

QAnon followers have perpetrated acts of violence on numerous occasions.^[38] Members of the movement actively took part in the 2020 [U.S. presidential election](#), during which they supported [Trump's campaign](#) and waged [information warfare](#) in an attempt to influence voters.^{[39][40]} After [Joe Biden](#) won, they were involved in [efforts to overturn the results](#) of the election. Several associates of Trump, such as General [Michael Flynn](#)^[44] and two members of his legal team, [Lin Wood](#)^[49] and [Sidney Powell](#),^[55] have promoted QAnon-derived conspiracy theories. When these tactics failed, Trump supporters – many of them QAnon followers – [attacked the U.S. Capitol](#) on January 6, 2021. The Capitol attack was a watershed moment for QAnon and led to a further, more sustained social media crackdown on the movement and its claims.^{[56][57]} David DePape, the suspect in the [Paul Pelosi attack](#), is a QAnon follower.^[58] In multiple posts on social media platforms and at least two blogs, he promoted QAnon and other [far-right conspiracy theories](#).^{[58][59]}

This is a perfect example how the Deep State and the media controls the narrative to the people. People think if you use Wikipedia as a reference, you are using a trusted source. That could not be further from the truth. Wikipedia is maintained by anyone who wants to comment on a specific topic. They are Deep State owned and operated. When searching for information always use multiple sources to gather your information. The same is true with search engines like Google. They are 100% owned and controlled by the Deep State. Never expect to obtain truthful results when you are dealing with an organization that has an agenda. The mainstream media is the exact same. We all were born with a brain and its about time we start using it and do our own research when seeking the truth. The problem is people are basically lazy. We want to come home and turn on the news for an hour and have someone tell us the news. Then we hear it again from a different news channel or read it on social media and decide that the story is true because several news outlets told us the same story.

The truth of the matter is there are only 6 people in the entire world that own and control every form of media worldwide. The news reporters are not telling you the facts of a specific story. They are telling you an authorized narrative of what their owners want you to know. We all have heard the saying that there are two sides to a story. Well, the mainstream media is in the business of selling negative stories slanted in their viewpoint. Fear and negative topics sell. Keeping the people in fear and dumbed down allows them to control humanity. That's why the Great Awakening is the Deep States biggest fear. The true power and control in life is knowledge. With knowledge you are truly a free and sovereign person. The more you know about the Deep States system the sooner we as humanity can truly free ourselves from their matrix system. They want everyone divided. With division comes confusion and the Deep State maintains control over humanity. When we are all united as We the People then the true power of control sifts to us destroying their system completely. This is not a democrat vs republican issue or black vs white issue or gay vs straight. This is simply good vs evil. We have about 7 billion people in the world and the evil we are fighting are about 1% of the world's population. It's obvious that good ought weights evil 99% to 1%. You really have only one question you need to ask yourself; do you want to be in the 99% group or the 1% group?

Now I am going to attempt to take a controversial topic and give you a completely different explanation that is based on the facts of the topic. This is to outline how the mainstream media and Deep State tries to spin a topic or story to ahead to their narrative. Any time you watch or read anything about QAnon they will use this script word for word. That's because this is the official narrative the Deep State has instructed them to follow. They say the same lies repeatedly. Then they have these so-called fact checkers that say the same things. How is it possible to fact check yourself? Let that sink in for a minute. These are paid people hired by the exact people generating the lies.

Ok. I will post their official statements and below I will give you factual statements to prove how the SCAM works. Remember this is only one topic. You can do this with 100% of the stories generated by mainstream media and always come up with the truth after doing some research.

QAnon^[a] (/ˈkjuːənɒn/ *KYOO-ə-non*, /ˈkjuːænɒn/ *KYOO-a-non*) is an [American political conspiracy theory](#) and [political movement](#). It originated in the [American far-right](#) political sphere in 2017.^[b] QAnon centers on fabricated claims made by an anonymous individual or individuals known as "Q". Those claims have been relayed, developed and supplemented by numerous [communities](#) and [influencers](#) associated with the movement.

My findings and truth to this statement:

First off there is not a group called QAnon. This group or title was invented by the media as a way of discrediting them. Any time you hear a person saying the QAnon you automatically know you are speaking to an uneducated person on the subject matter. There is Q and then there is Anons. Q or the entity that is known as Q did start posting intel drops on the internet in October of 2017. It is believed that Q might be a part of the military or has a military background. At this point in time the identity of Q has never been revealed so it's impossible to know for sure who Q is. Is Q a single person or a group of people we will have to wait until the time Q identity is made public. The Q posts also known as drops are written in very cryptic ways that is very hard for average people to decode the drops. This is where the Anons came into the picture. Anon is short for anonymous. Anyone can be an Anon. There are thousands of Anons around the world. These are very intelligent people worldwide who have painfully taken the time to decode the Q drops. It is very possible that a lot of the Anons are people that have a military intelligent background. For the same reason Q write the drops in military codes the Anons decode the drops.

As for Q or the so called QAnon being a conspiracy theory that's just another lie. Do your research and you will find the CIA invented the term conspiracy theory after JFK was killed. Anyone who every question the official government narrative is labeled a conspiracy theorist. Any it is very easy to discredit the person as being mentally unbalanced. The truth of the matter is the so-called conspiracy theorist of today are turning out to be correct about everything. In the Truter community they are known as conspiracy analysts and this title is worn as a badge of honor as humanity is waking up to the Deep State lies.

The core QAnon conspiracy theory is that a [cabal](#) of [Satanic](#),^{[2][3][4]} [cannibalistic sexual abusers of children](#) operating a global child [sex trafficking](#) ring conspired against former U.S. President [Donald Trump](#) during his [term in office](#).^[8] The QAnon conspiracy theory has direct roots in [Pizzagate](#), an internet conspiracy theory that appeared one year earlier; it also incorporates elements of many other theories.^[9] Some experts have described QAnon as a [cult](#).^{[10][11]}

My findings and truth to this statement:

There is no theory in this statement. There are thousands of pages of evidence and videos on the internet to prove this statement. You must take the time and do your own research. One warning once you see this stuff your life will change forever. The videos and images are very graphic and will make normal people sick to their stomach. This is worldwide and involves the highest people in our governments and Hollywood and sports figures and CEOs of major companies. When you go down this rabbit whole your life will change.

Q and the Anons are not a cult. They are exposing the Satanic people of the world to all of humanity. You need to understand how they operate. Everything is in reverse. They project onto the people that Q and the Anons are a cult, that's because they are in a cult themselves.

Followers of the conspiracy theory say that the [Trump administration](#) secretly fought the cabal of pedophiles, and would conduct mass arrests and executions of thousands of cabal members on a day known as "the Storm" or "the Event".^[12] QAnon conspiracy believers have named [Democratic](#) politicians, Hollywood actors, high-ranking government officials, business tycoons, and medical experts as members of the cabal.^[13] QAnon has also claimed that Trump stimulated the conspiracy of [Russian interference in the 2016 U.S. presidential election](#) to enlist [Robert Mueller](#) to join him in exposing the sex trafficking ring, and to prevent a *coup d'état* by [Barack Obama](#), [Hillary Clinton](#), and [George Soros](#).^{[14][15]} QAnon is described as [antisemitic](#) or rooted in antisemitic tropes, due to its fixation on Jewish financier [George Soros](#) and conspiracy theories about the [Rothschild family](#), a frequent target of antisemites.^{[16][17]} Many also consider it antisemitic due to its strong resemblance to the antisemitic [blood libel](#), the myth that Jews harvest the blood of children for ritual purposes.^[18]

My findings and truth to this statement:

If you watch the series called the Fall of the Cabal, it will explain in detail about this. When they say the STORM. That's a reference to a Q post. One of the posts says Trump will make a tweet my fellow Americans the STORM is upon us. At that point in time Trump will be in a protected place and the military will come in and make massive arrests of the Deep State assets. This is very hard to confirm or deny because if Q made such a post, I don't think they want to inform the Deep State to the plan of attack. This is another piece of information that we must wait and see how it plays out.

As for Trump conspiring with the Russian interference with the 2016 election. That's another 100% lie made up by the mainstream media. It has been well documented that Trump never conspired with Russia over the 2016 election. Therefore, Trump always says Russia, Russia Hoax. Trump was completely found innocent, and no charges had ever brought him. However, the media will still try and spin the story otherwise.

Not sure how or why Q or Anons have been labeled as antiemetics. There is not one single Q post that states that Q or Anons hate the Jewish people. Nothing in the Q posts about Barack Obama preventing a coup d'état. This is how the lies work. They just place them in the middle of the story and people think the lies are true. Like I said before people are lazy and won't take the time to research the information. I don't know anything about Jews harvesting blood of children for ritual purposes. What I can tell you are these sick sadistic people do harvest blood from children for rituals purposes. Nowhere in the Q posts dose it says specifically Jews. If you want to fully understand what they are talking about do some research on Adrenochrome and you will fully understand why they are lying to you. I must warn you. The images and videos are disgusting, and you will finally understand the evil we are fighting.

Although it has its origins in older conspiracy theories, the first post by Q was in October 2017 on the anonymous [imageboard](#) website [4chan](#). Q claimed to be a high-level government official with [Q clearance](#), who had access to classified information involving the Trump administration and its opponents in the United States.^[19] Q soon moved to [8chan](#), making it QAnon's online home.^[20] Q's often cryptic posts became known as "drops", which were later collected by aggregator apps and websites.

My findings and truth to this statement:

This statement is mostly true. Just remove conspiracy Theories. Like I stated before its is not confirmed that Q is military based or that Q operates out of Trumps administration. This is speculation on their part. Trump has never publicly told the people he is involved with Q or the Anons. He has heard of them but that's all he said.

The conspiracy theory expanded into a [viral phenomenon](#) and quickly went beyond [Internet culture](#), becoming familiar among the general population and turning into a real political movement. QAnon followers began to appear at [Trump reelection campaign rallies](#) in August 2018,^[21] and Trump amplified QAnon accounts on Twitter through his retweets.^[22] QAnon's conspiracy theories have also been relayed by Russian and Chinese state-backed media companies, social media [troll](#) accounts,^{[27][23][28]} and the far-right [Falun Gong](#)-associated [Epoch Media Group](#).^[34]

My findings and truth to this statement:

This entire statement is 100% garbage and nothing but lies. They have run out of things to say so they just made stuff up out of thin air. No different how our money is made from thin air. Do your research on the Federal Reserve it will shock you to the core.

Q and the Anon movement always were designed for one purpose. To wake up humanity. This is a worldwide movement to tell the truth to the entire world by using what are called digital soldiers. When you have a 100% captured operation run by the world's elite, you need to find a way to get the truth to the people. All forms of media and social media are controlled by the worldwide cabal. It would have been impossible to inform the people of the world by using existing forms of media. Therefore, the powers to be also know as Q decided to use the internet on open-source platforms to disseminate the information to the people. The Deep State is 100% powerless and can't stop this information from getting out to the people. All they can do is lie and create hit pieces in an attempt discredit the information. The Anons have done all the research and proven the Q posts are 100% true. There is a saying in the truther movement when the Deep State is attacking a person or an Anon that's because they are right over the target with their information. This boxes in the Deep State and all they

can do is create hit stories against the truth teller. The other saying that applies don't shoot the messenger

This last part of this statement really upset me after reading it. First off Russia and China have nothing to do with Q or the Q posts. Like stated earlier Q is probably a US military-based operation. There is no way that China or Russia would be involved with a US military operation. This again is 100% garbage and lies. The Deep State is trying to say this is some propaganda put out by foreign countries. The truth is our Deep State is putting out all this information and propaganda about Q and the Anons to discredit them. Go back and do some research and Obama signed an executive order when he was in office that allowed all forms of media companies to use propaganda against the United States. Therefore, Trump has always referred to the mainstream media as Fake News. He has been telling the world for years that the mainstream media is not to be trusted and is controlled by the Deep State.

The most disturbing part of this statement is:

and the far-right [Falun Gong](#)-associated [Epoch Media Group](#).^[34]

When I read this, I was sick to my stomach. First off, the Falun Gong people are a group of people who live in China over 100 thousand of them. They are not a political group of people so to call them far-right is another attempt to hurt these people. There are a lot of excellent documentaries on the internet about these people. Do your own research and form your own conclusions. China has rounded up the entire Falun Gong population and they are being forced to live in camps. This violates every humanitarian law possible. The Chinese government tries to tell the world these people are dangerous. They are a spiritual group of people who don't drink or smoke or do drugs. They are the healthiest people in the world due to their lifestyle. Now here is the real story they are held in camps the Chinese government won't tell you. Because they are the healthiest people in the world they are in fantastic physical and mental health. The Chinese government uses them as human medical donors. You read that correctly they are sold on the black market all around the world to the highest bidder. If a person needs a heart and is willing to pay top dollar, they will kill a person and provide the heart. You can see where I am going with this. Supply and demand. It's simply disgusting. Let me be perfectly clear when I refer to the Chinese government, I am not referring to the Chinese people. The Chinese people are some of the most beautiful people in the world. I am referring to the C.C.P. The Chinese Communist Party.

Since its emergence in American politics, QAnon has spawned movements around the world. The exact number of QAnon adherents is unclear,^{[41][35]} but the group maintains a large online following.^{[31][4]} After increased scrutiny of the movement and its [hashtags](#), mainstream [social media](#) companies such as [Twitter](#)^[36] and [Facebook](#)^[37] began taking action to stop the spread of the conspiracy theory.

My findings and truth to this statement:

This statement proves my point. You are reading a post from a Deep State source. They are telling you truth in front of your eyes. Everything is reverse in the eyes of the Deep State. Let's create a term conspiracy theory and let's put a negative spin on the term. Like I said earlier this phrase was created by the CIA to keep the people in line. If a person every question the official governmental position, they are labeled a conspiracy theorist. Now that Q and the entire Anon movement has been placed into that category, they just started censoring anyone who even dares to mention the word Q or Anon. I guess in the world of the Deep State they forgot about the First Amendment of our Constitution Freedom of Speech.

QAnon followers have perpetrated acts of violence on numerous occasions.^[38] Members of the movement actively took part in the 2020 [U.S. presidential election](#), during which they supported [Trump's campaign](#) and waged [information warfare](#) in an attempt to influence voters.^{[39][40]} After [Joe Biden](#) won, they were involved in [efforts to overturn the results](#) of the election. Several associates of Trump, such as General [Michael Flynn](#)^[44] and two members of his legal team, [Lin Wood](#)^[49] and [Sidney Powell](#),^[55] have promoted QAnon-derived conspiracy theories. When these tactics failed, Trump supporters – many of them QAnon followers – [attacked the U.S. Capitol](#) on January 6, 2021. The Capitol attack was a watershed moment for QAnon and led to a further, more sustained social media crackdown on the movement and its claims.^{[56][57]} David DePape, the suspect in the [Paul Pelosi attack](#), is a QAnon follower.^[58] In multiple posts on social media platforms and at least two blogs, he promoted QAnon and other [far-right conspiracy theories](#)

My findings and truth to this statement:

Again, this is 100% garbage and almost not worth commenting on, but I will. Anyone who has read the Q posts or have followed the Anons and the decodes knows one thing these are peaceful law-abiding people. 100% of the truther community always says the same thing. We are in a spiritual war between Good and Evil. And this is an information war not a physical war. We are all patriots who love this country and respect our flag. We operate under the law and will never use violence. How is it possible by providing truthful information to the people considered bad. People are free to vote for whomever they want. They had to get General Flynn's name into the story

somehow. That man was wrongfully put in prison for charges he never did. He was released a free man because of his was found innocent. He will go down in history as one of the finest people who ever served our proud country. Sidney Powell was his attorney who defended him on his charges and got him released from prison. Another wonderful patriot. Then we have Lin Wood one of the most honest and wonderful attorneys we have in our country. Maybe you see a theme here. They attack anyone who goes against the official narrative. This includes Trump. We as humanity are at a crossroads in life and we all need to decide what path we want to take. We can choose the side of good, or we can decide the side of evil. These wonderful people are exposing the Deep State to the entire world, and they can't stop the information from coming. All they can do is lie and put out hit pieces against them.

As for the events on January 6th they have been lying to the entire world about everything surrounding that day. You had over a million people who came out that very cold to hear Trump speak. People on the ground reported it was a loving event filled with people who love this country and just wanted to support Trump.

Ask the mainstream media or better yet Nancy Pelosi how come they won't release the 14 thousand hours of video footage to the people. The capitol building is one of the most secure buildings in our country. They have hundreds if not thousands of cameras both inside and outside of that building. When that video footage is finally released to the public then you will soon see the narrative change as the proof comes out. As for Q followers rushing into the capitol that day no one knows who these people are. What we do know for a FACT is ANTIFA and BLM members were bussed into the city and told to ware Trump clothes and the capitol police opened the doors and removed steel barriers allowing them into the capitol. This was at the direction of the FBI they controlled the operation. One thing that a million people have that the Deep State could not control is they had cell phones with cameras and videos. There are thousands of videos on the internet showing you the truth. Another question you must ask yourself. How was it possible to open the doors from the outside when they have no locks on the outside of the doors. The only way the doors are opened are from the inside remotely. And every door in that building has magnetic locks on them. It would take over 2000 pounds of force to open those doors. The doors were opened from the inside by the capitol police allowing ANTIFA and BLM members into the building. Once the doors were opened innocent people got caught up in the mess and just walked into the building. This was all planned by the Deep State to confirm Biden recent election. The Deep State knew that members of congress were going to challenge the results of the 2020 presidential election and needed a way to stop the process.

David DePape, the suspect in the [Paul Pelosi attack](#), is a QAnon follower.^[58] In multiple posts on social media platforms and at least two blogs, he promoted QAnon and other [far-right conspiracy theories](#)

My findings and truth to this statement:

I really love this lie. These people who write this garbage really think people are stupid and will fall for anything. Sadly, people who only listen to the mainstream media are not stupid, but they are lazy. Everything in this posting has been found on the internet. We live in the information age. Anyone with a smart phone and an internet connection can research any topic in the world. If you can think of something you will be able to find it on the internet.

Now to the actual truth about this person David DePape. He was at a gay night club in San Francisco and Paul Pelosi was also a regular patron of this night club. They decided to go back to Mr. Pelosi's home. There was never a break in or an attack on Mr. Pelosi. The news stories about this topic changed by the hour. Everyone knows this story stinks and no one believes anything. The glass window was broken from the inside of the house. How is it possible for a person to break into your house when the glass on the ground is on the outside? This is where you need to use your brain and logic.

When the story first was reported the media wanted to control the narrative. Right away they labeled Mr. DePape as some far right-wing conspiracy theorist, and he is a QAnon person. What have I been telling you all alone? Just create a term from the CIA conspiracy theorists and for the rest of time that person is a nut job and is not to be believed. Well now I got them at their own game. Do you want to know the truth about Mr. DePape and him being some right-wing nut job QAnon. Well, it turns out that narrative failed big in the mainstream media. Mr. DePape is a gay man, and he was living in a bus and his social media accounts showed he hated Trump and the republicans. He is as liberal as you can get. Here is the rest of the story they forgot to tell you, but I will. On the same day the story came out in the news someone created two fake social media accounts pretending they were Mr. DePape. The social media accounts were from right-wing groups. They started posting all kinds of comments to make Mr. DePape out as a right-wing nut job. Like I have said before we live in the information age. Right away good hard-working people went to the internet and within a few hours figured everything out. They got caught in their own lies. As soon as the Deep State people got called out, they immediately closed both social media accounts.

I have written this post for one reason to wake people up. Question everything uses your own brain and trust no one. I don't want you to believe a single word written in this post. Do your own research and form your own conclusions. We all have been lied to by everyone and everything our entire lives. The Deep State has kept us dumb on purpose. When you are dumb you are easily controlled. When you know the truth and have the knowledge that's when We The People have the power and control.
